A. Paths of the passing runs, by solution

django-14351: the 8 runs that pass the maintainers' tests

file the merged solution changed
other file read by half or more
other source file
test or the agent's own file

In.get_group_by_cols (lookups.py)

Claude Opus 4.5 — *same as the merged solution*

Query.get_group_by_cols (query.py)

Claude Opus 4.6
GLM-5
GPT-5.2

Lookup.get_group_by_cols (lookups.py)

Claude Sonnet 4.5
MiniMax M2.5

8 functions in lookups.py, related_lookups.py

Gemini 3 Flash

3 functions in lookups.py

Claude Haiku 4.5

0 20 40 60 80 100 120 140

Steps before the first edit (black bar)

B. What solving required

The merged solution's author ranks first of 271 people active in the year before by past commits to these files (3 years), weighted by the share of solving runs that read them

	the author's commits (rank among the file's authors)
models/lookups.py	6 (most of 11)
sql/compiler.py	7 (2nd of 26)
sql/query.py	27 (most of 30)
models/expressions.py	17 (most of 25)
fields/related_lookups.py	0 (of 2)
sql/where.py	2 (most of 4)
models/query.py	4 (3rd of 39)
fields/related.py	0 (of 14)
models/query_utils.py	2 (most of 13)

0 100%

Solving runs that read the file before editing
